GET STARTED

Sign in with the e-mail on your ticket

The Companion app runs in your phone's browser, so there is nothing to install. Sign in once with the e-mail address your ticket is registered to, and the app has your schedule, your meetings and your badge ready.

- 1 Scan the QR code on the front page, or go to event.gatheratt.com/proptech-2026.
- 2 Type the e-mail address your ticket was registered with and tap **Send me a code**.
- 3 Find the e-mail with your six-digit code and type it in. The code works for 15 minutes. Nothing there? Check your spam folder, or ask for a new code after a minute.
- 4 Tap **Continue**, and you are in.

TIP

Put it on your home screen. In Safari on iPhone, tap Share and then Add to Home Screen. In Chrome on Android, open the menu and tap Add to Home screen.

JUST LOOKING?

Tap **Continue without signing in** to browse the programme, speakers, exhibitors and partners. Your schedule, meetings, messages, badge and the attendee list need you to sign in.

2

Your ticket e-mail

Then tap Send me a code

The home screen

GETTING AROUND

Home, the bottom bar and the menu

The bar at the bottom of every screen takes you anywhere in the app. Your notifications and your profile sit in the top corner.

- **Home** has the countdown, your profile, the sessions you have saved under Your program, the partners, and Find your way with shortcuts to everything else.
- **Meetings** is where you book and manage one-to-one meetings.
- Top right, the **bell** shows your notifications and your **photo** opens your profile.
- **Schedule** is the full programme for the day.
- The round **menu** button opens Venue, Exhibitors, Speakers, Partners, Attendees, Meetings, Messages, My badge, the Scanner and the language switch.
- **EN / NO** switches the whole app between English and Norwegian.

PARTNERS Here on behalf of a partner? Home and your profile also show your company's partner page and a link to your partner portal.

SCHEDULE

Find the sessions you want

Every session on every stage, in one list. The Schedule tab opens with what is up next and lists the whole day below.

- **Up next** at the top: swipe through the next session on each stage.
- **Filter** by stage, by language, by speaker or by partner.
- Each session shows its time, length, stage and language. Tap it for the full description, the speakers and the partners behind it.
- **Search the schedule** by typing what you are looking for.
- **Sort by stages** to see one card per stage with what is on next.
- The hour buttons jump straight to that part of the day.

SCHEDULE

Save sessions and share your day

Build your own day from the programme. Saved sessions and your meetings end up in one place, My schedule.

- Tap the **bookmark** on a session to save it. It fills in and the session goes to My schedule. Tap it again to remove it.
- **Share your schedule** gives you a link. Anyone with it can see the sessions you have saved, including ones you add later. You can stop sharing at any time.
- **My schedule** shows your saved sessions and your meetings together. Open it from the top of the Schedule tab, or from Your program on Home.
- Tap a **stage** name to see which room and floor it is on, and everything happening there.

MEETINGS

Book a table with the people you came to meet

Meetings take place at numbered tables in the Networking Lounge. Choose 15, 20 or 30 minutes at any free quarter hour, and the app gives you a table.

- **Book a table** when you know when. Pick the time first, then the person.
- **Suggest a meeting** when you know who. Tap *people are ready to meet* on the Meetings tab, or open someone in Attendees and tap Suggest a meeting. Then pick the time.
- The list shows the people who are open to meetings. Search by name, title or company, or scan their badge.
- The Meetings tab shows how many meetings you have left to book. To book, you need to be **in the attendee list** and **open to meeting requests** yourself.

GOOD TO KNOW The app picks a free table and puts its number on the invitation, so you both know exactly where to go.

1

Time, place and table

MEETINGS

Replies, messages and changes

Once you have sent an invitation, everything about that meeting lives on its own page: the time, the table, the people and the conversation.

- Your invitation shows as **Waiting for reply**. The other person sees it the next time they open Meetings, so let them know.
- Plans changed? Open the meeting and tap **Change the time** or **Cancel meeting**.
- They can accept or decline, and either of you can **send a message** in the meeting.
- The **bell** tells you when someone replies or writes to you. Tap a notification to open the meeting.

AT THE TABLE On time in, on time out. Please leave the table ready for the next guests.

MESSAGES

Write to anyone at the summit

Messages is your private inbox in the app: one conversation per person, with attendees, speakers and the people behind the partners. Open it from the menu.

- To start a conversation, open someone in **Attendees** and tap **Send a message**. Their page also shows the meetings you have together. You need to be in the attendee list yourself to send messages.
- They see your first message under Messages and have **three days to reply**. You can write more once they answer, so make the first one count.
- Tap ... next to a message you have sent to **edit** or **delete** it.
- The menu shows how many unread messages you have, next to **Messages**.

MEETINGS TOO A meeting has its own conversation. Open the meeting and tap Send a message to write about that meeting.

EXHIBITORS AND PARTNERS

Find the stands and connect with partners

Exhibitors are spread over two floors of Construction City. The floor plan shows every stand with its logo.

- Open **Exhibitors** from the menu. Switch between **Floor 1** and **Floor 2**, pinch to zoom, and tap a stand to see who is there.
- **Partners** lists every partner by tier. A partner page has what they do, their sessions, their stand if they have one, the people there and their links.
- **List** shows every exhibitor by stand number. The pin takes you to the stand on the floor plan.
- Tap **Connect** on a partner page to send them your contact details. You can undo it, and your profile lists every partner you have shared with.

PEOPLE

Speakers and attendees

See who is on stage and who is in the building, and get in touch before the day is over.

- **Speakers** lists everyone on stage. Filter to main speakers or highlighted speakers, or search by name, title or company.
- **Attendees** shows who is here and how many have checked in. Search by name, title or company.
- A speaker page shows their sessions. Tap one to go straight to it.
- Open someone to read about them, find them on LinkedIn, **suggest a meeting** or **send a message**.

YOUR CHOICE You decide whether you appear in the attendee list and whether people can send you meeting requests. Both are under Preferences on your profile. With them switched off, you cannot book meetings or send messages yourself.

YOU

Your badge and your profile

Tap your photo in the top corner for your profile. Your badge and the scanner are in the menu.

- **My badge** shows your name, title, company and a personal QR code. Keep it handy so people can scan you.
- **Edit profile** opens your Gatheratt profile, where you change how you appear to others.
- **Shared with** lists the partners you have sent your contact details to, each with Undo.
- **Preferences**: whether you are listed in the attendee list, whether you are open to meeting requests, and your language.
- **Log out** signs you out of the app and of the event platform.
